WHY AN AIMPOINT® RED DOT SIGHT?

To be successful, shooters must be able to aim accurately and quickly under a wide variety of conditions. On a shooting range, there is plenty of time to take aim, but in the real world everything is in fast motion. Add rough terrain, foul weather, poor light and high level of stress and even the most experienced hunter will be put to the test.

Tests have repeatedly proven that the single red dot reticule is the fastest on target in timed and rapid-fire close target exercises and also provides the greatest increase in hit probability with moving targets. Other aiming devices require that the shooter’s focus leaves the target or create limited situational awareness. Aimpoint red dot sights give you increased aiming confidence, allow you to remain on target and shoot with both eyes open, fully aware at all times.

THE AIMPOINT PHILOSOPHY

When the time comes to take the shot, there should be no question that you can count on your sight to perform. We believe that a weapon sight should simplify aiming while meeting the highest possible requirements for reliability and ruggedness.

We know that conditions in the field place extreme demands on your equipment, so we design and test Aimpoint products to stand up to any condition you are likely to encounter. We also design our products to operate constantly for years on a single battery so your sight will be ready when you are.
Many great hunting opportunities happen suddenly, and you have to be ready when game appears. An Aimpoint® sight gives you a tremendous advantage. Aiming with both eyes open allows you to see the animal as well as the surroundings. You instinctively place the red dot on the game, and are ready to pull the trigger.

We design our sights to make you effective and extremely fast when you really need to be.
ALL CONDITIONS – ANYWHERE

Aimpoint® sights work in all light conditions, from the darkness of the forest before dawn, to bright mountain sunlight. They are completely waterproof so you never have to worry about rain or immersion. Aimpoint sights are developed and tested to be used in any weather conditions, from the sub-zero temperatures of the Arctic to the heat and humidity of the tropics.

ON ANY TYPE OF FIREARM
Whether you have a rifle, shotgun, handgun, black powder rifle or bow, Aimpoint has a sight for you.

USER FRIENDLINESS
Aimpoint sights are extremely user friendly. Operated by a mechanical switch or pushbuttons, an Aimpoint sight can be easily and quickly changed to the right setting while simultaneously aiming.

Our mechanical switch and push buttons will not freeze and are easy to operate whether you are wearing gloves or not.

ENVIRONMENTAL AWARENESS
At Aimpoint, we take great pride in making sure that neither hazardous nor radioactive materials are used in our sights.

STANDARD FEATURES ON ALL AIMPOINT® SIGHTS

- Unlimited field of view
- Parallax-free
- Unlimited eye relief
- Operative in extreme weather conditions
- Extremely rugged, durable construction
- No hazardous materials
- No laser emission that could be harmful to your eyes
- Increased aiming confidence and hit probability
- Reduced training time and ammunition consumption
- Battery life measured in years

“I am very excited to utilize the new Aimpoint® Micro H-2 in PCC competitions. The large dot is perfect for target acquisition in those close fast-moving situations.”

Teemu Rintala
World Champion in both IPSC Rifle and Shotgun disciplines
Since its introduction the Aimpoint® Micro sight has become the worldwide standard for compact reflex sight. Hunters have embraced this sight for its compact size, durability, and extremely long battery life.

**MICRO™ SERIES SIGHTS**

With all of the ruggedness that has made Aimpoint® sights famous all over the world, Aimpoint Micro series sights are able to withstand the toughest conditions while adding negligible weight to your firearm. Shotguns, rifles, handguns or archery, these sights can do it all!

**MICRO H-2™**

The Micro H-2 is a result of feedback coming from hard core customers desiring an even more hard core Micro sight. With a redesigned and reinforced house body, as well as flip-up covers protecting the lenses, the Micro H-2 can withstand all types of environmental conditions. And thanks to new optical lenses and cutting edge lens coatings, the optical performance and the shape and clarity of the red dot are radically improved.

**MICRO H-2™ WITH MOUNT FOR TIKKA T3**

<table>
<thead>
<tr>

| Power switch | Rotary switch |
| Mounting | Sauer 404 |

The Sauer 404 mount for the most common semi-automatic rifles (Browning
Bar, Maral, Winchester STX, Benelli ARGO) is attached directly to the action.
The Aimpoint® Micro H-2 2MOA and the Micro mount for semi-automatic
rifles are sold as a kit. The mount can also be bought separately.

The Micro™ mount for the most common semi-automatic rifles (Browning
Bar, Maral, Winchester STX, Benelli ARGO) is attached directly to the action.
The Aimpoint® Micro H-2 2MOA and the Micro mount for semi-automatic
rifles are sold as a kit. The mount can also be bought separately.

The Micro™ mount for semi-automatic shotguns is attached on the rifle
with dovetail (11.0-13.0 mm). The mount uses double anchor points. It is
extremely robust and a high-grade product. The Aimpoint® Micro H-2
2MOA and the Micro mount for semi-automatic shotguns are sold as a kit.
The mount can also be bought separately.

The Micro™ mount for the Micro series can be quickly mounted and
dismounted without any influence on settings or accuracy. The Aimpoint®
Micro H-2 2MOA and the Sauer 404 Mount for the Micro series are sold as
a complete kit only.

The Micro™ mount for the Micro series can be quickly mounted and
dismounted without any influence on settings or accuracy. The Aimpoint®
Micro H-2 2MOA and the Micro mount for semi-automatic rifles are sold as
a complete kit only.

The Micro™ mount for semi-automatic shotguns is attached on the rifle
with dovetail (11.0-13.0 mm). The mount uses double anchor points. It is
extremely robust and a high-grade product. The Aimpoint® Micro H-2
2MOA and the Micro mount for semi-automatic shotguns are sold as a kit.
The mount can also be bought separately.

The Micro series sights can be mounted onto a magnified
scope with an adapter to hunt at both long and short distances.

The Aimpoint® Micro S-1 was designed specifically for use on shotguns.
It attaches directly to the shotgun at any point along the ventilated rib.
Interchangeable adapter plates are included to accommodate most popular
shotgun rib sizes. It provides a compact, low-profile optic for shotgun hunters.
The big, bright 6 MOA red dot provides an optimal combination of target
acquisition, speed, and visibility. The Micro S-1 greatly enhances hit percentage
for hunters, as well as on the sporting clays course.

The Micro™ mount for semi-automatic shotguns is attached on the rifle
with dovetail (11.0-13.0 mm). The mount uses double anchor points. It is
extremely robust and a high-grade product. The Aimpoint® Micro H-2
2MOA and the Micro mount for semi-automatic shotguns are sold as a kit.
The mount can also be bought separately.
**HUNTER™ SERIES SIGHTS**

The Aimpoint® Hunter series offers an exceptional optical performance and incorporates the latest technology from Aimpoint. Its design is similar to a traditional magnified scope and is appreciated by many hunters. The Hunter series is available in 4 different versions. The length of the action of your rifle will determine if you need a long or short version. For an even better optical experience, the 34 mm versions would be the sight we recommend.

This sight has a 30 mm tube diameter, which offers a wide choice of mounting rings. Due to its length, we recommend this sight for use on standard or short action rifles, as well as semi-automatic rifles, combination rifles and drilling.

Accessories & mounts info on page 17-19.
Since the introduction, market response to Aimpoint 9000 series sights has been very positive. The 9000 series’ ability to offer a combination of a high quality optic at an affordable price has kept this sight in high demand. The 9000 series is available in three different versions. The length of the action of your rifle will determine if you need a long or short version.

</table>

This is the short version of the series which is for use on standard or short action rifles, as well as semi-automatic rifles, combination rifles and drilling.
The Aimpoint® 3X-C is optimized for the Micro™ series, for long-range aiming or observation. A variable (-2 to +2) dioptic setting allows this magnifier to be adapted to the individual shooter’s eye. The 3X-C can also be used as a handheld 3X monocular. It is mounted behind the sight and utilizes the red dot in Aimpoint sights as the aiming reticle, eliminating the need for re-zeroing when shifting between non-magnified and magnified aiming.

**3X-C™**

<table>
<thead>
<tr>
<th>Item No</th>
<th>Magnification</th>
<th>Field of view</th>
<th>Length</th>
<th>Weight (excl. mount)</th>
</tr>
</thead>
<tbody>
<tr>
<td>200273</td>
<td>3x</td>
<td>6&quot;</td>
<td>103 mm / 4.1 in</td>
<td>220 g / 7.8 oz</td>
</tr>
</tbody>
</table>

**NOTE!**

In order to mount the 3X-C you need: FlipMount and TwistMount base to be mounted on a Picatinny rail. To get the same optical axis as the magnifier you need a 30 or 39mm spacer for the Micro sight.

MOUNTING SOLUTIONS

**Screws and Allen key included**

**Screws and Aimpoint Tool included**

***Screws, Aimpoint Tool and Thread Sealer included***

--

**Micro Mount for Tikka T3**
Low rail mount for Tikka T3, with two attachment points.

Item No. 200225

**Micro Mount for Leupold QR Base**
Mount suitable for all Leupold QR bases with two anchor points.

Item No. 200224

**Micro Mount for Leupold QR**
Mount for the most common semi-automatic rifles (Browning Bar, Maral, Winchester STX, Benelli ARGO).

Item No. 200255

**Micro Mount**
Mount for semi-automatic shotguns. Attached on the shotgun with dovetail (11.0-13.0 mm).

Item No. 200256

**Micro Mount**
Mount for the most common semi-automatic rifles (Browning Bar, Maral, Winchester STX, Benelli ARGO).

Item No. 200257

**CompC3 Mount**
Mount for the most common semi-automatic rifles (Browning Bar, Maral, Winchester STX, Benelli ARGO).

Item No. 200255

**CompC3 Mount**
Mount for semi-automatic shotguns. Attached on the shotgun with dovetail (11.0-13.0 mm).

Item No. 200256

**FlipMount Ring incl.**
TwistMount Base
A quick attach/detach mount that can be quickly flipped in or out of the optical axis. For Aimpoint magnifiers or other optical equipment with a 30 mm tube. Aimpoint tool included.

Item No. 200248
(30 mm height of optical axis)

Item No. 200249
(39 mm height of optical axis)

**FlipMount Ring**
Separate ring for TwistMount base.

Item No. 200248
(30 mm height of optical axis)

Item No. 200249
(39 mm height of optical axis)

**TwistMount Base**

Item No. 12236

**Micro LRP Mount Kit**
Lever Release Picatinny for Micro sights. Returns to zero after dismounting. Thread sealer included.

Item No. 12905**

**Micro H-1 Mount**
Fits Krieghoff and Merkel drillings.

Item No. 12844**

**Micro H-1 Safari Mount**
Mount for Tikka T3, with two anchor points.

Item No. 200225

**Micro LRP Mount**
Mount for the most common semi-automatic rifles (Browning Bar/ Maral, Winchester STX, Benelli ARGO).

Item No. 200255

**Micro H-1 Drilling Mount**
Fits most of the Merkel drillings.

Item No. 12200**

**Micro H-1 Safari Mount**
Fits most of the Merkel Double Rifles.

Item No. 12201**

**Micro H-1 Mount**
Fits most of the Merkel drillings.

Item No. 12844**

**Micro Mount for Micro sights**
For Micro sights. Raises height of optical axis to 39 mm for co-witness with AR-15.

Item No. 12357***

**Micro Mount Kit**
For Ruger 10/22.

Item No. 12466**

**Micro Mount Kit**
For Ruger 10/22.

Item No. 12466**

**Micro 11 mm**
Dovetail Mount
Fits most of the 11 mm Dovetail bases ranging from 10-12.5 mm.

Item No. 12215**

**Micro LRP Mount**
Lever Release Picatinny for Micro sights. Returns to zero after dismounting. Thread sealer included.

Item No. 12905***

**Micro LRP Mount Kit**
To convert Micro Mount to Lever Release Picatinny.

Item No. 12184

**Micro Spacer High**
For Micro sights. Raises height of optical axis to 39 mm for co-witness with AR-15.

Item No. 12358***

**Micro Spacer Low**
For Micro sights. Raises height of optical axis to 30 mm.

Item No. 12357***

**Mount Adapter 30 mm**
For magnifying scopes with 30 mm tube.

Item No. 200152*

**Mount Adapter 34 mm**
For magnifying scopes with 34 mm tube.

Item No. 200153*

**SRW-L Ring**
Low Wide Ring 30 mm black.

For CompC3 sights. Fits on Weaver rail.

Item No. 12244*

**WH 34 mm Rings**
Black, one pair.

For H34S and H34L. Fits on Weaver and Picatinny rails.

Item No. 200087*

**30 mm Rings**
Black, one pair.

For 9000 & Hunter sights.

Item No. 12229*

**SRW-L Ring**
Low Wide Ring 30 mm black.

For CompC3 sights. Fits on Weaver rail.

**Mount Adapter 34 mm**
For magnifying scopes with 34 mm tube.

Item No. 200153*
THE RED DOT EXPLAINED

2 MOA
The small dot does not obscure the target even if it is small and a bit further out. If necessary, you can increase the intensity to over-expose the dot, making it look slightly larger. The target is still easy to find.

4 MOA
When the 2 MOA dot seems too small and you need something a little bit bigger for close-up shots, while still having the ability to take longer shots without covering too much of the target. You can decrease the intensity if needed to give the appearance of a smaller and finer dot. The 4 MOA red dot could also be a solution if you have difficulties with seeing the smaller 2 MOA dot as round.

6 MOA
For targets that are close and fast-moving with a split second to shoot. The dot is big and easy to find, and the eyes have no problems finding the reticle on the target. Perfect for those IPSC disciplines, dog handlers, etc.

HOW MUCH DOES THE RED DOT COVER AT CERTAIN DISTANCES?
1 MOA = 3 cm at 100 meters.

For Speed, Accuracy and Reliability

In summary, Aimpoint’s breakthrough technology allows you to do what comes naturally – shoot with both eyes open while remaining focused on the target. Instinctively place the red dot on the game, and you are ready to pull the trigger.

Get on target fast, and forget about being challenged by poor weather conditions, bad light, or moving targets. It is this inherent combination of simplicity, speed, accuracy, and reliability that makes Aimpoint® sights the preferred choice for beginners and experts alike.

Features for all Aimpoint Red Dot Sights

Technology
• ACET (Advanced Circuit Efficiency Technology)
• Working principle: Reflex collimator sight - red dot sight

Optical Data
• LED (Light Emitting Diode) totally eye-safe
• Light source wave length, 650 nm red light
• Parallax free - No centering required
• Unlimited eye relief
• Anti-reflex coating all surfaces & multi-layer coating objective lens
• No magnification (1X)

Mechanical Data
• Material housing and tube, high strength aluminium
• Surface finish housing, anodized, semi-matte
• Black color housing

Environmental Data
• Temperature range: -30° to +60°C (-22° to +140°F)
• Fully waterproof
• No radioactive material used
• No laser emission

Specifications are subject to change without notice.
